DUMAS WAS AN ANIMAL

John Bigelow Describes
a Meeting With Him
in 1864.

New York, Dec. 9.—A new and picturesque view of Alexander Dumas is given in the address of John Bigelow, the veteran diplomat, to the American Academy of Arts and Letters, which is holding its annual session here this week. It was while Mr. Bigelow was representing the United States in Paris in 1864 that he met the great French novelist.

"In response to an invitation from Dumas," says Mr. Bigelow, "I drove to his cottage and saw a large, picturesque looking man standing bare-headed and book in hand at the cottage gate. He had curly hair and an enormous throat, and his retreating forehead showed his strong animal nature in full force. He wore no cravat, but was otherwise scrupulously neat and had a school boy's alertness. His cottage was well furnished, but it must have been very different from the castle which he occupied in his more prosperous days, when his income was \$150,000 a year.

"He told me that he had been informed that if he would go to America and write a story it would have a great sale there. Immediately I thought of the critical contest which was going on in my country at that time over the race problem. It occurred to me that Alexander Dumas, with his negro blood, had done more than any other African to vindicate the intellectual possibilities of that race. I wanted him to write his personal observations of the historic effort, but he insisted on a four-volume romance to be sold by subscription.

"He showed me the manuscript of his novel, 'St. Edouard,' which he was then writing. There was not an erasure or correction on it. 'I never correct my writings,' he said. 'If I begin to re-read my manuscripts I always end by throwing them into the fire.'

"Dumas had no reflective character. He was a typical member of the African race in this, whenever he reflected he became confused just like our own American negroes.

"At our dinner that day we had a carp, a leg of mutton and shellfish with tomato sauce. Dumas ate like an animal, breathing stentoriously. He drank champagne, claret and Burgundy and he soon sank into a state of somnolency. I felt like the guest of honor at La Fontaine feast of animals.

"Before I left he made me understand that he desired the United States government to enlist his pen in its service, but as a friend warned me that he would borrow money from any one I gave him letters of introduction. I never offered him any inducements."

Victoria, B. C., Dec. 9.—The Viceroy of Manchuria has sent a memorial to Peking, urging that the three provinces be thrown open to all nations, according to advice received yesterday. The purpose is to offset Japanese and Russian activity in Manchuria by the influx from other nations.

Five men were killed at Kofu in a pitched battle fought by Japanese and Korean laborers shortly before the Taamba Maru sailed. The laborers were employed by the Tokyo Electric company. Sixty Koreans attacked 300 Japanese, fighting with swords and hurling dynamite bombs. The police arrested several Koreans, but their compatriots attacked the police and rescued them. The arrival of a large force of police put an end to the fighting.

ELECTION IS VOID

"Drys" Used the Bible as Their Party Emblem

Frankfort, Ky., Dec. 9.—Because the "drys" of Powell county, Kentucky, used the Bible as an emblem on their ballots in a recent local option election and carried the county, the state court of appeals yesterday declared the election void.

On each ballot was the picture of an open book with the words "Holy Bible" under it. The "wets" for an emblem used the picture of a whisky bottle and a glass, out of which protruded the head of a snake.

At the first trial witnesses testified that they were told that if they wanted to go to heaven they should make their mark under the Bible. One said he wanted to vote "wet," but feared, if he did not heed the sign of the Bible, that the Almighty would wreak vengeance upon him.

In the opinion handed down yesterday it is said a statute prohibits the use of the Bible as an emblem on election ballots.

WORLD'S MARKETS

WALL STREET HAS A QUICK RECOVERY

New York, Dec. 9.—The decision of the United States circuit court in Pennsylvania in the case of the Temple Iron company, declaring the corporation illegal, but otherwise sustaining the rights of the company, which control it, was evidently favorably construed in Wall Street today. Opening prices, particularly of the coal carrying roads, showed substantial advances. Lehigh Valley advanced 2 1/2 and Reading 2 1/2 in the early transaction. Elsewhere it was list gains ranged from a point to material fractions on fairly heavy trading.

About a score of stocks, including Union Pacific, Southern Pacific, Northern Pacific, New York Central, Rock Island, Erie, U. S. Steel and American Smelting moved 1/2 to 1 1/2 before there was enough stock dumped on the market to drive prices back.

A close study of the principles involved in the Temple Iron decision seemed to lead to the conclusion that outcome was not wholly favorable to the railroads. Although it is true that the holdings of these companies on the percentage basis of production is not affected, it is possible that no little ingenuity may have to be used to find some method of coal distribution. The market became dull in the afternoon, but the rally activity returned midway set in and prices recovered to near the earlier high level, but did not hold very well.

Bonds were steady.

MRS. EDDY'S NOT GUILTY IS VERDICT

Not a Dollar Is Left to Geo. Glover or Dr. Eddy

Boston, Dec. 9.—According to the Post this morning, the will of Mrs. Mary Baker G. Eddy, which was made public in a few days, leaves practically the whole of the \$1,500,000 estate to the Christian Science church.

The board of directors of the church is to have the final decision as to the form the bequest will take. It is said that Calvin Fry, one of her advisers, gets \$18,000, it is said, and Rev. Irving C. Tomlinson and Mrs. Laura E. Sargent are also beneficiaries.

Members of the board of directors and other leaders of the mother church are not mentioned in the will. According to the Post's informant, there is nothing in the will which relates to the location of Mrs. Eddy's burial place.

SILVER DOLLARS WORTH \$3,000
Carlisle, Pa., Dec. 9.—Two silver dollars of the 1894 issue have been found here by Miss Mabel Smith, executrix of the estate of the late John Comfort. Although more than 19,000 of the coins were minted, nearly all of them were lost in shipment to a foreign country. Coin experts say they know of only four more of the pieces in existence, and that the last time one was sold it brought more than \$2,000.

CLAIMS THE GOVERNMENT WILL SUPPRESS INSURGENTS
El Paso, Dec. 9.—Clement Strube, manager of the Carrell Lumber company at Minaca, Chihuahua, arrived this morning after a trip through the region held by the insurgents in northern Mexico. He said:

"Troops are advancing on the affected region from all four directions and should have the insurrection crushed in a few days. Guerrero is retaken by the insurgents on Sunday and they now hold that place, San Andres, Pedernales, La Junta, Minaca, Madera, Temosachic and several other places, but lots of them, like Minaca and Temosachic, were without soldiers when taken. The insurgents claim to have 2,000 men, but I think 1,500 armed fighting men is a proper estimate of their force. By Saturday night the Mexican government will have four or five thousand troops in Chihuahua and should have the rebels hemmed in. No Americans have been ousted."

HELP FOR EX-PRISONERS.
New York, Dec. 9.—For the help of released prisoners and for betterment of prison conditions in this city, a national league of volunteer workers has been organized here. SIX FIREMEN OVERCOME.
New York, Dec. 9.—Six firemen were overcome by an explosion of gas in a fire which broke out today in a five-story building in west 23rd street occupied by Dempsey and Carroll, stationers and other firms. The fire did damage amounting to \$100,000.

Fire destroyed the greater part of the big plant of the Edison Electric company on Rockwell Place, Brooklyn, today and the lower section of Brooklyn was without light or power.

More than one hundred residents of Brigham City and a large number from Salt Lake City came to Ogden last evening to witness "The Fortune Hunter" at the Orpheum.

ACCIDENT TO AN AUTO

Woman Thrown to the Ground and Is Decapitated by Street Car

Stratford, Conn., Dec. 9.—Inquiry has been opened by the coroner into the automobile collision last night in which Jessica Saunders was killed and Benjamin Casper Thompson of St. Paul, Minn., captain of the Yale Golf club, was injured.

The preliminary inquiry showed that the automobile, which is owned and was driven by Stuyvesant Peabody, Yale, 1911, of Chicago, was run into by a trolley car. The statement has been made that the automobile was running close to the tracks to keep free from the snow, and the trolley car, coming up behind, crashed into it.

When the trolley car struck the machine Miss Saunders was thrown out, falling about 20 feet, and was decapitated by the car. Thompson's arm was broken, while Peabody and Miss Lillian Foster of Milford were uninjured.

Miss Saunders was a dressmaker in Mystic. She was married some years ago from Erasmus Chebro and resumed her maiden name.

Captain Prescott kept the identity of his wife secret, not even telling his parents, who live in Chicago and are said to be wealthy.

"I am sorry my secret has become known," said Captain Prescott last night. "Yes, it is true Miss Patterson is my wife. We have been living quietly in our apartments and are very happy. We had hoped that the one would learn of Mrs. Prescott's identity, but I suppose it will have to come out now."

Captain Prescott is head of a manufacturing company in Marinette, Wis., where he formerly lived, and since coming to Seattle has been connected with a large iron works.

EXCLUDING ASIATICS

Japanese and Chinese to Be Barred From School's of Chicago

Chicago, Dec. 9.—Members of the school management committee of the board of education yesterday again drew a race discrimination line against the "yellow peril" in the schools. They decided to rescind their previous action which permitted both Japanese and Chinese to attend school and ask the board at its next meeting to adopt a rule which will bar adult Chinese from securing a free education in Chicago.

The new rule, which the board is expected to pass, provides that "no adults be admitted unless they are citizens or have filed their first papers, or expressed an intention to do so. In the latter instance they must file their papers within one month or be excluded from further attendance."

Although the Chinese are not named in the recommendation, the fact that they are ineligible to citizenship effectively bars them from securing an education. Four adult aliens were recommended for admittance to the Jones school under the new rule.

UNIONISTS GAINED 21

Which Is Almost Offset by Gains of Liberals and Laborites

London, Dec. 9.—Tonight's totals show that the coalition parties have thus far secured 244 seats in the new parliament. The Liberals, 207. The Unionists have gained twenty-one constituencies, the Liberals fourteen and the Labor party four.

The coalition aggregate is divided as follows:
Liberals, 156; Irish Nationalists, 53; Independent Nationalists, 6; Labor members, 29.

Timothy Healy Defeated.
The parliamentary elections continue their hum-drum course, the chief feature, perhaps, being the striking similarity to the results of January last. Healy is a gain noted on one side before it is equalized on the other. Today's news of special interest was the defeat of Timothy Healy at Louth, which constituency he has represented in the house of commons for eighteen years. The Redmondites brought all their forces to bear in turning out the man who may be said to be a more vicious opponent of the Irish leader than O'Brien himself. Healy is known as the Ishmael of Nationalist politics and has followed an independent course since the downfall of Parnell, to which he largely contributed.

The successful candidate, Richard Hazleton, who yesterday also was returned unopposed for the north division of Galway, tried to send Healy into retirement in January but failed by 99 votes. The rejoicing in the Redmond camp over the defeat of O'Brien's chief lieutenant, quite overshadow the chagrin at Wm. Redmond's failure to oust O'Brien in Cork city.

Nationalist in Belfast.
The cause of woman's suffrage is making a pitiable showing. Thus far they have had but two candidates and of these one polled but twenty-two and the other thirty-three votes.

Other interesting developments today were the capture of the only National seat in Belfast city by Jos. Devlin, one of the Redmond party who recently visited America, and the return of Sir Edward Grey, the minister of foreign affairs for the Berwick division of Northumberland by a majority of three more than he obtained in January.

It is understood that Healy has already made a protest against the conduct of the election at Louth, alleging bribery and intimidation. Exciting scenes marked the polling. Throughout the day there were free fights and incidentally considerable damage to property. Healy himself required police protection.

MURDERER HAS CONFESSED CRIME

Medford, Ores., Dec. 9.—Late last night E. G. Brooke, a native of Switzerland, voluntarily surrendered to the police here and is alleged to have confessed that he killed Mrs. Belle Ellis, whose body was found on the Southern Pacific tracks on the outskirts of Medford on Wednesday morning.

Brooks is said to have met the woman on the track in the darkness and asked her to give him fifty cents. She refused, according to the police, whereupon he pulled a hammer from his pocket and hit her on the head.

CHARITY WAS MISPLACED IN THIS INSTANCE
Northampton, Mass., Dec. 9.—After Mrs. Charles W. Walker had given a job of window washing in charity, to a stranger who called at her home

late yesterday with a hard luck story, she missed her jewelry case, which contained about \$3,000 worth of diamonds and other jewels.

The window washer was also missing. The police have as yet obtained no clew to his whereabouts.

HIGHER PRICES FOR LUMBER.
Seattle, Dec. 9.—Lumber manufacturers expect higher prices within the next thirty or sixty days as a result of the activity which has marked the market of late. This buoyancy is attributed to the large order placed by the Chicago, Burlington & Quincy railroad, which, instead of buying seven million feet, as anticipated, placed an order for twenty million feet, most of which will be manufactured in the Pacific Northwest.

State Has Increased in Population Nearly 35 Per Cent
Washington, Dec. 9.—The population of the state of New Jersey is 2,537,165 according to statistics of the thirteenth census today. This is an increase of 653,498, or 34.7 per cent over 1,883,669 in 1900. The increase from 1890 to 1900 was 428,736 or 20.4 per cent.
